JULIE,

Dig Safe, Protect Yourself and Your Family.

JULIE, Inc. (Joint Utility Locating Information for Excavators) is a not-for-profit corporation that provides homeowners and professional excavators with only one place to contact for safer digging.

State law requires the actual person doing the digging to contact JULIE with the locate request information at least 48 hours (two business days, excludes weekends and holidays) in advance of the start of excavation. You will be provided with a "dig number" for your records. You must begin your project within 14 calendar days from the time you contact JULIE. If you want to start your project over the weekend, remember to contact JULIE by Wednesday at 4 p.m.

Even if you're digging in the same location as a previous project, contact JULIE. Digging just a little to the left or right or a little

deeper can damage an underground utility line. It's happened to other homeowners, don't let it happen to you.

Our member utilities are only required to mark the lines that they own, not privately installed or owned lines. Privately owned lines may include water and sewer services as well as electric and gas lines to a garage or workshop.

In order to help the member utility locator properly identify your project area, JULIE recommends that you pre-mark the area where you will be digging with white paint and/or flags.

Protect yourself and family before any digging project, large or small, call JULIE at 811 or 800-892-0123. Call Center agents are available 24/7. Or, visit online at illinois1call.com and click on E-Request to enter your own locate request.

Know what's

below.
