## New Flag Designs Promote Safe Digging

Have you seen our new Flag Messaging Toolkit? It features options to easily incorporate a safe digging message on your marking flags. Join members who have already started using these flag designs to spread the word about the importance of preventing underground utility line damage.

### Display Banners On Your Site

JULIE has created a banner toolkit that will allow you to work with your local printer to promote the safe digging message. You can even customize it with your own logo.
