

# JULIE BEFORE YOU DIG.COM

Every Project. Every Time.

Post 1 (April - Safe Digging Month):

April is Safe Digging Month, a reminder to follow safe digging practices like contacting JULIE before you dig (<https://www.illinois1call.com/click-before-you-dig-using-e-request/>) to have utility companies come out to locate and mark underground utility lines on your property...**every project, every time**. Striking an underground utility line can cause an outage to critical services like electricity, natural gas, water, phone, cable TV, Internet, fiber optics and more. It can cause you, your family or your neighbors serious physical harm, too. If you're one of the thousands of Illinoisans planning on planting, building, adding, or fixing anything outdoors, do your part to prevent underground utility line damage. The service is always FREE. **#SafeDiggingMonth #DigSafeIllinois**

Every Project. Every Time.

Post 2 (8/11 Day):

August 11th is National 811 Day. Did you know that the majority of underground utility line damage comes from someone striking a line while digging because they didn't know where it was buried? Imagine knocking out power to your house or the entire block, causing an Internet interruption when your family and neighbors are working from home, or injuring yourself or your family. It's easy to avoid damaging underground utility lines. Simply contact JULIE before you dig...every project, every time...to have utility companies come to your property and mark where underground utility lines are buried. The service is FREE and it's the law!

Post 4 (Nice Weather/Fall):

The weather's looking good for outdoor DIY projects. If you're planting, building, adding, or fixing anything outside...use caution when digging because underground utility lines may be buried on your property. Striking one can cause serious damage or knock out a critical service. Protect yourself and your family by contacting JULIE before you dig to have utility companies come out to locate and mark underground utility lines on your property for FREE. Submit a locate request online (<https://www.illinois1call.com/click-before-you-dig-using-e-request/>) anytime.

Post 5 (Storm Clean-Up):

Damage from a storm is bad enough. Don't make things worse by striking an underground utility line during clean-up efforts. This can create a critical service outage, cause environmental damage, force costly delays to restoration efforts, and lead to personal injury. Before removing a tree, replacing a fence or mailbox post, or doing anything that requires digging, contact JULIE

[\(https://www.illinois1call.com/click-before-you-dig-using-e-request/\)](https://www.illinois1call.com/click-before-you-dig-using-e-request/) first. They will notify utility companies to come out and mark where underground utility lines are buried on your property. The service is as always FREE. **#StormCleanUp**
