PROTECT YOUR LAND & COMMUNITY

BE AWARE OF UNDERGROUND UTILITY LINES

Contact **JULIE**
and Avoid Damages

 **BEFOREYOU DIG.COM**
Every Project. Every Time.

SAFETY ON THE FARM EXTENDS BEYOND YOUR FIELDS

You know your land. But hidden hazards can put your livelihood at risk. Before tile plowing, setting posts, deep ripping, building or clearing out waterways, sub-soiling, or excavating, contact JULIE to identify the location of critical underground utility lines. Striking one can trigger service outages, cause costly property damage, harm your family or neighbors...even threaten your life. Protect your farm, your workers and yourself. Contact JULIE before you dig.

It's a FREE service.

PROTECT CRITICAL SERVICES

Hitting a pipeline or underground utility line can impact your farm and family for generations. But you can help prevent damage from occurring simply by contacting JULIE before you dig at least 3 days before starting a project. The process is easy.

1: Identify Your Dig Area

Pre-mark the dig site with white paint, flags or stakes.

2: Submit A Locate Request

Available 24/7/365:

JULIEBeforeYouDig.com

Call 811 or 800-892-0123

3: Wait For The Flags & Check For Utility Responses

Utility companies are required to mark their underground lines and post their responses to JULIE's Positive Response system by the date and time on your locate request. When all responses are in, you'll know that your property has been marked or cleared and whether it's legal to dig.

4: Respect The Marks

Don't remove flags, stakes or paint marks until your project is finished.

5: Dig With Care

Understand the tolerance zone.

Never rely on permanent markers or assume you know the location or depth of underground utilities buried on your property. Lines that carry natural gas, oil, electricity, fiber optics, communications, and water may be just a few inches below ground because of topsoil removal, erosion and weather.

Keeping the agricultural community safe is a shared responsibility. Do your part to protect Illinois farms, families and the environment.
