

# Notice Timeline

### Timelines

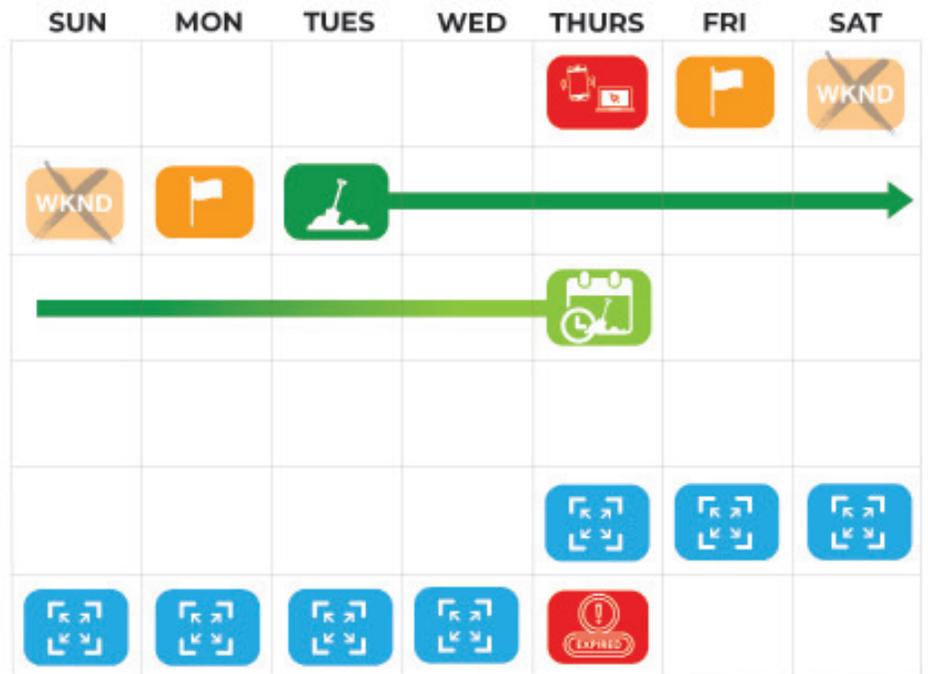

Minimum 2 days but not more than 10 days advance notice. Dig by date expires at midnight of the 10th day after the day of the notice. Extensions are allowed from the 20th with the expiration on the 25th day.

# Notification Timeline

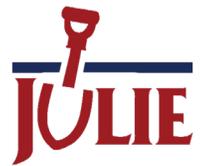

### Day/Days (new)

Replaces the existing definition of 48 hours to 2 days, not including the day of the notice, weekends, and JULIE recognized holidays.

Emergency excavation notices must start within 2 days after the date of the notice and expire 10 days after the date of the notice.

# Ticket Format Explanation

## The Banner Line

MBRCDE 00000 JULIE 03/02/2004 08:15AM A250070001-00A NEW NORMAL NOTICE

## Additional Information:

MEET	Indicates caller has requested a joint meet.
DESIGN	Indicates a design stage or planning purpose request.

(Note: The specific information about a locate request follows the banner line.)

<b>DIG. NO.</b>	Each dig number will begin with either an A or an X. These numbers are JULIE server reference numbers. The first two numbers are the current year and the next three numbers are the Julian date. The last four numbers represent the request sequence number for the day the request was called in.
<b>PRIORITY</b>	Type of priority (see above).
<b>DIGSTART</b>	Date and time locate request is valid.
<b>RCVD</b>	Date and time the JULIE system received the locate request.
<b>REV</b>	Revision number of the locate request. Original requests will be Revision 00A or 00X. References to a previous dig will result in an incremental revision number.
<b>ORG DIG</b>	An original dig number that has been revised or referred to.
<b>RCVD</b>	Date and time of original ticket.
<b>FIRM</b>	Company doing the work.
<b>CALLER</b>	Person calling/entering locate request information.
<b>ADDRESS</b>	Firm's address.
<b>CITY, ST</b>	City and State where firm is located.
<b>ZIP</b>	Firm's zip code.
<b>PHONE</b>	Firm's phone number.
<b>EXT</b>	Extension (if applies).
<b>FAX</b>	Firm's fax number.
<b>CALL BK</b>	This field may contain another number to reach the firm/company at or the firm/company preference for an all clear notification. (REQST EML ALL CLEARS or REQST FAX ALL CLEARS).
<b>DONE FOR</b>	Firm/Company the caller is performing the excavation for.
<b>SITECNT</b>	Contact person at the excavation site.
<b>PHONE</b>	Phone number for the person on site.
<b>EMAIL</b>	If provided, an email address to contact the firm/company.
<b>COUNTY</b>	County where the excavation site is located.
<b>PLACE</b>	The Township or city in which the excavation will occur.
<b>ADDRESS</b>	The jobsite address of the excavation site which may or may not include a numerical component.
<b>SUBDIV</b>	The name of the subdivision, if applicable, in which the excavation will occur.
<b>CROSS</b>	The nearest cross-street to the above job site.

<b>GRIDS</b>	Lists the tier, range, section, quarter-section combinations of the site on which member notification was determined. For example, T35NNR10E36NW is the northwest quarter-section of section 36 in 35 North/10 East. Parts of this data may be omitted (i.e. no quarter-section). This data may also contain a wildcard (*) to indicate multiple grids (i.e. T35NR10E36N*). This wildcard expression would indicate both the northwest and northeast grids were selected. On each line of this field, there is a potential for up to five individual grid entries.
<b>CALLGPS</b>	If provided by the requesting party, a GPS location.
<b>BESTFIT</b>	If a polygon shape is created around the area of excavation during the locate request generation process, these 4 GPS coordinates represent the corners of a rectangle that would encompass this digsite polygon.
<b>PREMARK</b>	Indicate how the job site is pre-marked.
<b>DIR BORING</b>	Will the job include directional boring or horizontal directional drilling?
<b>DEPTH&gt;7FT</b>	Will the excavation exceed 7 feet in depth?
